EDUCATION

Bachelor of Science
Baku Engineering University
2018 – 2022 · Baku

LANGUAGES

Azerbaijani — Native

Turkish

English

Yusif Mustafa

Frontend Developer

React · Angular · TypeScript · Keycloak · Camunda · Microservices

Frontend Developer with 3+ years of commercial experience building enterprise web applications with React, Angular and TypeScript. Currently at Avrora Group, developing and extending microservice-based platforms, including Keycloak authentication and authorization and Camunda-driven business process tracking. Background in government-scale CRM systems and enterprise Angular solutions, with a focus on modular architecture, reactive state management and clean, maintainable code.

EXPERIENCE

Frontend Developer · Avrora Group — CURRENT

Jul 2026 – Present · Baku

- Develop and improve multiple **microservice-based** enterprise projects: building new modules, extending existing functionality and contributing to new products from the ground up.
- Implement authentication and authorization with **Keycloak** (OpenID Connect / OAuth 2.0), including login flows, session handling and role-based access control across routes and UI components.
- Integrate the **Camunda** workflow engine to track and display the current stage of business processes in the UI.
- Work closely with backend teams to integrate REST APIs exposed by independent microservices.

Frontend Developer · SOFAZ

Jul 2025 – Present · Remote

State Oil Fund of Azerbaijan

- Contribute to a large-scale **CRM system** for a government organization, built with React.js.
- Build reusable UI components and responsive layouts on Material Dashboard, improving consistency and performance.
- Integrate backend REST APIs and refactor existing features; manage state with Redux and Context API.

Frontend Developer · Ayes Az

Sep 2024 – Jul 2026 · Baku

- Designed and maintained high-performance enterprise applications with **Angular** and **TypeScript**.
- Built modular, dynamic user interfaces following a feature-based module architecture.
- Managed complex application state with **RxJS** and reactive patterns; integrated REST APIs.
- Collaborated in cross-functional Agile teams to keep the codebase scalable and code quality high.

Frontend Developer · Roof Academy

Jan 2024 – Aug 2024 · Remote

- Co-developed a **course management system** for the academy, built with Angular.
- Developed Angular modules for enterprise projects; refactored legacy code to improve performance and maintainability.
- Built user-friendly interfaces with DevExtreme and Angular Material.

Frontend Developer · IC Group

Feb 2023 – Aug 2023 · Baku

- Built new React.js modules, extended existing website functionality and integrated REST APIs.

Intern Frontend Developer · Avrora Group

Jul 2022 – Feb 2023 · Baku

- Built React.js interfaces and developed backend services and REST APIs with Node.js and MySQL.
